Question	Yes/No	Details
Checklist 1 – Approach routes & Street furniture		
1.1 - Is the school within convenient walking distance of — - Public Highway and Pathways? - Public Transport e.g. bus stops - Carparking?	Yes	The school is located just off a main road; bus stops are a short walk away. The school has a small, staff car park and road parking in the village.
1.2 – Route free of kerbs? Do crossings on approach have tactile paving? If there is a pedestrian crossing, do these have turn cones to aid people who are Deafblind?	No	The roads immediately outside school have curbed pathways.
1.3 – Wide enough? If a route or pathway is narrow, is there a suitable passing place for wheelchair users? Is plantation trimmed and are low branches avoided?	Yes	
1.4 – Surfaces even and slip resistant? Is paving flush with no cracks or gaps that could trap the wheels of a wheelchair?	Yes	The main pathways are in reasonable state of repair.
1.5 – Is the location of the school clearly identified from the street? Visual clues and sufficient landmarks to aid orientation?	Yes	There is a sign on the main road which indicates the school and directions to access the school.
1.6 – Free from hazards such as bollards, litter bins? Are planting features kept to a minimum and are they colour contrasted?	Yes	
1.7 – Free from hazardous building features such as outward opening doors, windows or overhangs? Do columns or structural posts have markings at two heights?	Yes	The school is set in its own grounds and doesn't impact the main approach routes
1.8 - Adequate seating provided along routes? Is there seating where parents wait to pick up / drop off their children?	No	There is seating available within the school grounds but not on the approach route.
Checklist 2 – Car Parking		
2.1 - Are accessible bays provided for badge holders?	Yes	Bays can be made available on the staff car park if requested.
2.2 - Accessible bays clearly sign-posted from the school's car park entrance? Is there signage to the front of the bays?	No	Staff car park has minimal marking
2.3 - Are bays marked out appropriately and easily identified? Can car doors be fully opened to allow disabled drivers and passengers to transfer to a wheel chair parked alongside?	No/Yes	
2.4 - Close enough to facilities the car park serves?	Yes	

SOTIOUE ACCESS ACETT CHECKER		LEIGHT KIMAKT GOHGGE
2.5 - Routes from parking area to school entrance accessible, with	Yes	
dropped kerbs and appropriate tactile warnings? Car park surface		
smooth, even and free from loose stones?		
2.6 - For larger car parks, are safety marked out walking routes	N/A	
provided to guard slow moving persons or people with hearing		
impairments?		
Checklist 3 - External Ramps		
3.1 - Wide enough and suitably graded? Is there colour contrast to	Yes/No	There is currently no colour contrast to the surface of the
the surface of the ramp?		ramp
3.2 - Suitable handrails on each side?	N/A	Yes
3.3 - Surface slip-resistant, firmly fixed and easy to maintain?	N/A	Yes
3.4 - Edges protected to prevent accidents?	N/A	Yes
Checklist 4 - External Steps		
4.1 - Visual and tactile warnings at the top and bottom of steps?	No	
4.2 - Suitable handrails on each side? Are handrails suitably colour	No	
contrasted to aid people with impaired vision?		
4.3 - Lighting adequate and well positioned? Are steps appropriately	Yes	
illuminated during darker hours?		
4.4 - Treads long enough and all the same length?	Yes	Single Steps
4.5 - Risers shallow enough, all the same height, and unlikely to trip	N/A	
users? Are there open risers?		
4.6 - Nosing's readily identifiable? If nosing's are painted, is the	No	
paint still durable with no wear and tear?		
Checklist 5 – Entrances		
5.1 - Main school entrances easy to find? Is the entrance clearly	Yes	
distinguishable from facade?		
5.2 - Door opening wide enough for all users? Enough space	Yes	
alongside leading edge for a wheel chair user to open the door while		
clear of the door swing?		
5.3 - Level or flush threshold?	Yes	Level
5.4 - If there are steps at the main entrance, is there signage	N/A	
indicating where the accessible entrance is located?		
5.5 - Can people each side of the door, either standing or seated,	Yes	
see each other and be seen? If the entrance is solid, is this due to		
security concerns?		
-		· · · · · · · · · · · · · · · · · · ·

5.6 - Door control at a suitable height for both standing and seated users? Are door handles clearly located, easy to use and grip? 5.7 - Door closer of appropriate type? Can the door be easily opened single handily? 5.8 - Entry phones and intercoms detailed to allow use by people with sensory or mobility impairments? Is there an LED display to accommodate people with hearing impairments? 5.9 - Glazed entrance door: markings for safety and visibility? If manifestations are provided, are these suitably colour contrasted against their background 5.10 - Weather mat of firm texture and flush with floor? 5.10 - Weather mat of firm texture and flush with floor? 6.1 - Clear view in from outside? Can receptionists see visitors and provide assistance if necessary? 6.2 - Transitional lighting? Is the entrance lobby and reception area well illuminated? 6.3 - Reception/desk/counter/ checkout suitable for approach and use from both sides by people either standing and seated? 6.4 - Surfaces suitable? Is there colour contrast to the flooring in front of the reception desk and are edges highlighted? 6.5 - Induction loop fitted? Is there signage indicating the availability of the facility? Are front line staff aware of the facility and its purpose? Checklist 7 - Corridors and Internal Surfaces 7.1 - Corridor wide enough for a wheel chair users of the facility and its purpose? Checklist 7 - Corridors and Internal Surfaces 7.2 - Free from obstruction to wheel chair users and from hazards to people with impaired sight? Are there any internal columns that have a lack of colour contrast? 7.3 - Are all key facilities of available can these be 'swopped' with a standard classroom? 7.4 - Floor surfaces suitable for passage of wheelchairs? Junctions between floor surfaces suitable for passage of wheelchairs? Junctions between floor surfaces suitable for passage of wheelchairs? Junctions between floor surfaces suitable for passage of wheelchairs? Junctions	CONTROL MODEL OF CONTROL	J	LEIGHT KIW KKT GOTIGGE
5.7 - Door closer of appropriate type? Can the door be easily opened single handliy? 5.8 - Entry phones and intercoms detailed to allow use by people with sensory or mobility impairments? Is there an LED display to accommodate people with hearing impairments?? 5.9 - Glazed entrance door: markings for safety and visibility? If manifestations are provided, are these suitably colour contrasted against their background 5.10 - Weather mat of firm texture and flush with floor? Checklist 6 - Reception Areas and Lobbies 6.1 - Clear view in from outside? Can receptionists see visitors and provide assistance if necessary? 6.2 - Transitional lighting? Is the entrance lobby and reception area well illuminated? 6.3 - Reception/desk/counter/ checkout suitable for approach and use from both sides by people either standing and seated? 6.4 - Surfaces suitable? Is there colour contrast to the flooring in front of the reception desk and are edges highlighted? 6.5 - Induction loop fitted? Is there signage indicating the availability of the facility? Are front line staff aware of the facility and its purpose? Checklist 7 - Corridors and Internal Surfaces 7.1 - Corridor wide enough for a wheel chair users on and from the people to pass? Turning space for wheel chair users? 7.2 - Free from obstruction to wheel chair users and from hazards to people with impaired sight? Are there any internal columns that have a lack of colour contrast? 7.3 - Are all key facilities within the school accessible for all users? 7.4 - Floor surfaces suitable for passage of wheelchairs? Junctions Yes Torning space for wheel chair users and from hazards to a lack of colour contrast? 7.4 - Floor surfaces suitable for passage of wheelchairs? Junctions		Yes	
poened single handily? 5.8 - Entry phones and intercoms detailed to allow use by people with sensory or mobility impairments? Is there an LED display to accommodate people with hearing impairments? 5.9 - Glazed entrance door: markings for safety and visibility? If manifestations are provided, are these suitably colour contrasted against their background 5.10 - Weather mat of firm texture and flush with floor? Checklist 6 - Reception Areas and Lobbies 6.1 - Clear view in from outside? Can receptionists see visitors and provide assistance if necessary? 6.2 - Transitional lighting? Is the entrance lobby and reception area well illuminated? 6.3 - Reception/desk/counter/ checkout suitable for approach and use from both sides by people either standing and seated? 6.4 - Surfaces suitable? Is there colour contrast to the flooring in front of the reception desk and are edges highlighted? 6.5 - Induction loop fitted? Is there signage indicating the availability of the facility? Are front line staff aware of the facility and its purpose? Checklist 7 - Corridors and Internal Surfaces 7.1 - Corridor wide enough for a wheel chair users to manoeuvre and for other people to pass? Turning space for wheel chair users? 7.2 - Free from obstruction to wheel chair users and from hazards to people with impaired sight? Are there any internal columns that have a lack of colour contrast? 7.3 - Are all key facilities within the school accessible for all users? E.g. Sport Hall, Main Hall, Music Room, Changing Room etc. Where there are facilities not available can these be 'swopped' with a standard classroom? 7.4 - Floor surfaces suitable for passage of wheelchairs? Junctions			
5.8 - Entry phones and intercoms detailed to allow use by people with sensory or mobility impairments? Is there an LED display to accommodate people with hearing impairments? 5.9 - Glazed entrance door: markings for safety and visibility? If manifestations are provided, are these suitably colour contrasted against their background 5.10 - Weather mat of firm texture and flush with floor? Checklist 6 - Reception Areas and Lobbies 6.1 - Clear view in from outside? Can receptionists see visitors and provide assistance if necessary? 6.2 - Transitional lighting? Is the entrance lobby and reception area well illuminated? 6.3 - Reception/desk/counter/ checkout suitable for approach and use from both sides by people either standing and seated? 6.4 - Surfaces suitable? Is there colour contrast to the flooring in front of the reception desk and are edges highlighted? 6.5 - Induction loop fitted? Is there signage indicating the availability of the facility? Are front line staff aware of the facility and its purpose? Checklist 7 - Corridors and Internal Surfaces 7.1 - Corridor wide enough for a wheel chair users and for other people to pass? Turning space for wheel chair users a form hazards to people with impaired sight? Are there any internal columns that have a lack of colour contrast? 7.3 - Are all key facilities within the school accessible for all users? F.G. Sport Hall, Main Hall, Music Room, Changing Room etc. Where there are facilities not available can these be 'swopped' with a standard classroom? 7.4 - Floor surfaces suitable for passage of wheelchairs? 	between floor surfaces correctly detailed?		

7.5 - Colours, tones and textures varied to help people distinguish between surfaces and fixtures and fittings? Do the floors suitably	Yes	LEIGHT KIIWIKKT GGNGGE
colour contrast against the walls (this can also be achieved by having well contrasted skirting boards)		
7.6 - Floor surfaces slip-resistant? Bright, boldly patterned floors	Yes	
avoided? Busy or distracting wall coverings avoided?	. ••	
Checklist 8 - Internal Doors		
8.1 - Distinguishable from surroundings?	Yes	
8.2 - Glass door: clearly visible when closed? Are manifestations suitably colour contrasted against the background?	N/A	
8.3 - Can people each side of the door, either standing or seated, see each other and be seen? Are vision panels kept clear of temporary notices? (for an example classroom entrances)	No	
8.4 - Clear opening width sufficient for a wheel chair user? Adequate space available alongside leading edge for a wheel chair user to open the door while clear of the door swing	Yes	
8.5 - Door control at a height suitable for both standing and seated users? Easily gripped and operated? Control clearly distinguishable from the door itself?	Yes	
8.6 - Door light enough to open easily? Door closers of an appropriate type and with minimum necessary opening pressure?	Yes	Some doors are heavy
Checklist 9 - Internal Ramps		
9.1 - Ramp available for short rise within single storey?	N/A	
9.2 - Wide enough and suitably graded? Surface slip resistant?	N/A	
9.3 - Exposed edges protected to prevent accidents?	N/A	
9.4 - Suitable handrail each side?	N/A	
Checklist 10 - Internal Stairs		
10.1 - Treads long enough and each of same length?	N/A	
10.2 - Risers shallow enough, all the same height, and unlikely to	N/A	
trip users?	N 1 / A	
10.3 - Nosing's readily identifiable?	N/A	
10.4 - Suitable handrails on each side? Do handrails extend 300mm beyond the first and last step pitch-line? Are handrails suitably colour contrasted?	N/A	

10.E. Landings his anguish and provided at intermediate levels in a		L ELIGITI KIIVIAKT GOTIOOL
10.5 - Landings big enough and provided at intermediate levels in a	N/A	
long flight?		
Checklist 11 – Lifts		
11.1 - Passenger lift available for vertical circulation within a building	N/A	
of more than one storey?		
11.2 - Car dimensions sufficient to allow space for wheel chair user?	N/A	
Door opens wide enough for wheel chair users?		
11.3 - Support rails in car appropriately designed and positioned	N/A	
11.4 - Is there a mirror within the lift car?	N/A	
11.5 - Delayed-action closer and override (not a door pressure	N/A	
system) to allow slow entry or exit?		
11.6 - Controls, including emergency call, located easily using visual	N/A	
or tactile information and within easy reach of all users?		
11.7 - Voice indication of floor reached? Is audio loud enough to be	N/A	
heard by hearing aid users?		
11.8 - Is there a floor level indicator inside and outside the lift to	N/A	
reassure people with hearing impairments?		
Checklist 12 - WC Provision & Changing Areas		
Checklist 12 - WC Provision & Changing Areas 12.1 - Lobby door light enough to open easily? Lobby of sufficient	Yes

Is	Yes Yes Yes Yes Yes No	No grab rails

CONTROL / COLOG / CODIT ON LONGING		L LEIGHT KINWAKT GOTTOGE
13.1 - Compartment large enough to allow manoeuvring into position for frontal, lateral, angled and backward transfer unassisted and with assistance?	Yes	
13.2 - Travel distance to a suitable WC no greater than that for ablebodied people?	Yes	
13.3 - Sufficient space available outside toilet compartment for manoeuvre? Is the entrance wide enough and does it open outwards?	Yes	
13.4 - Hand washing and dry facilities within easy reach of someone seated on WC? Is the hand basin suitably positioned in accordance to BS8300?	Yes	
13.5 - Door controls, lock and light switch easily reached and operated? Is there a grab rail to the inner face of the entrance?	Yes	
13.6 - Tap appropriate for use by a person with limited dexterity, grip of strength?	Yes	
13.7 - Suitably designed grab rails fitted in all positions necessary to assist manoeuvring? Are grab rails suitably colour contrasted to aid people with impaired vision?	Yes	
13.8 - Is there a back rest provided to the toilet pan?	No	None fitted
13.9 - Is the flush of a suitable spatula type and is it appropriately located on the transfer side of the toilet pan	Yes	Correct handle fitted but on the none transfer side
13.10 - Is the transfer side of the toilet pan kept clear of any obstacles that may deny wheelchair users all the transferring techniques in which an accessible WC is designed to provide?	Yes	
13.11 - Is there a cord alarm? Is this coloured red with two triangular bangles and easy to reach from floor level?	Yes	
Checklist 14 – Facilities		
14.1 - Are seats provided at intervals along long internal routes or	N/A	
where waiting likely? Seats stable, with armrests and provided in a		
range of heights? Space for wheelchair user to pull up alongside a seated companion?		
14.2 - Are chairs with armrests provided within the Staff Room and other key locations such as meeting areas?	No	Chairs have no armrest
14.3 - Are a number of chairs with armrests available within each classroom?	Yes	Some staff have armrests on their seats

SOFICOL ACCESS ACCIT CHECKER		LEIGHT KIMAKT GOTTOGE
14.4 - Do dining room counters have provision on both sides for	Yes/ No	No induction loop
wheelchair users? Do these counters have an induction loop to		
accommodate hearing aid users?		
14.5 - Do vending machines have all operating parts at less than	N/A	
1200mm off the floor level and are they suitably colour contrasted?		
14.6 - Does the dining room have appropriate seating rather than	No	Mobile tables with fixed seats are placed out each
fixed seating which can be inaccessible for a range of users?		lunchtime, access to the side of the tables is possible
14.7 - Is there a dropped counter and an induction loop available for	N/A	· · · · · · · · · · · · · · · · · · ·
the Library counter?		
14.8 - Where there are IT facilities i.e. within classrooms and the	No	
Library (if applicable) are height adjustable computer desks		
available?		
14.9 - In the Main Hall, is the stage raised? If so what is the current	N/A	
procedure for wheelchair users? For an example when receiving		
awards on Speech Day?		
Checklist 15 - Way Finding		
15.1 - Overall layout of school reasonably clear and logical? Is there	Yes/No	No Braille signage
signage available in Braille and tactile?		
15.2 - On entering the reception area, are signs designed and	No	
located to convey information to visitors with sight impairments and		
wheel chair users with lower eye levels?		
15.3 - Are standard toilet facilities suitably signed? On approach and	Yes	
on the actual entrances? Are the locations of the accessible WC		
facilities suitably identified and located? Does signage have the		
International Symbol of Access? (Wheelchair symbol)		
15.4 - Within stairwells are each of the levels clearly identifiable by	N/A	
tactile and visual information?		
15.5 - Are the location of the lifts clearly signed at key locations	N/A	
throughout the school? Is there lift signage near the reception area		
and on entry to key stairwells?		
Checklist 16 - Lighting & Acoustics		
16.1 - Lighting designed to meet a wide range of user's needs?	Yes	
Level of lighting sufficient for intended use? Lights positioned where		
they do not cause glare, reflection, confusing shadows or pools of		
light and dark?		
- L - -		

CONSCENSION TO THE ONLINE		LEIGHT KIM/ IKT GOHGGE
16.2 - Can occupiers control lighting? Are light switch plates suitably	Yes/No	Some areas in the older build the switches are not at
colour contrasted and appropriately positioned for a wheelchair user?		wheelchair height
16.3 - Are classrooms appropriately illuminated and are blinds	Yes	
available to control the natural day lighting? Is glare avoided which		
can hinder attempts by people with hearing impairments to lipread?		
16.4 - Quiet and noisy areas separated by a buffer zone?	Yes	
Environment free from unnecessary obtrusive noise (e.g. heating		
units)		
16.5 - Good balance of hard and soft surfaces?	Yes	
16.6 - Are induction loops fitted within the key areas i.e Main Hall,	No	
Sports Hall, key study areas e.g. Music Room.		
Checklist 17 - Means of Escape		
17.1 - Audible alarm system supplemented by visual system?	No	
17.2 - Ground floor exit routes accessible to all, including wheel	No	Not all exits are ramps - some fire exits have steps
chair users, as entrance routes?		
17.3 - Once outside, can a wheelchair user get to a place of safety?	Yes	
Are pathways provided and are these wide enough?		
17.4 - Vertical escape from upper to lower floors possible using a	N/A	
fire-protected lift with an independent power supply?	A *	
17.5 - If disabled people are unable to leave the building, is there a	No	
suitable refuge area? Is there an intercom provided within the refuge		
area and does this have accessible features such as an LED		
display? Charklist 18 Building Management		
Checklist 18 - Building Management		
18.1 - External Routes; Including steps and ramps, kept clean,	Yes	
unobstructed and free from surface water, snow and ice?	K 1 -	
18.2 - Accessible parking; Designated spaces not used by	No	
nondisabled drivers and kept free from obstructions?	V	
18.3 - Horizontal circulation; Space required for wheel chair	Yes	
manoeuvre not obstructed by furniture, deliveries, storage etc.?	N1/A	
18.4 - Vertical circulation; Lifts, platform lifts and stair lifts checked	N/A	
regularly for proper functioning?		

18.5 - Means of Escape; Exit routes checked regularly for freedom from obstacles (including locked doors) and combustible materials? Alarm systems, including those in WCs, regularly checked?	Yes	As per fire evacuation and lockdown policy
